

PortaPros Announces New Location in Pocatello, Idaho

Pocatello, Idaho, July 1st, 2023 – PortaPros, a portable sanitation and temporary fencing company, is pleased to reveal that they have opened a new location in Pocatello, Idaho – which was recently announced the “Fortune 50 BEST Places to Live for Families 2023” and designated as the “Gateway to the Northwest.”

“We’ve been looking for the perfect location in northwest to expand our reach. It’s with great excitement that we’re expanding our service area to Pocatello and surrounding areas like American Falls, Aberdeen, and Chubbuck. We look forward to establishing a *different* expectation in portable sanitation and temporary fencing within the Pocatello community —one of the main principles PortaPros was founded on and that we still uphold today, *is we do it better by doing it different*” said Taelor Preheim, Marketing Manager for PortaPros. “Our team is thrilled to be a part of the growing town and we look forward to working and supporting the community, we now call home. We welcome the community of Pocatello to say hello to our team while they are on duty or at your local Nel’s Bi-Lo Market.”

As a [Treasure Valley’s Top Company](#), PortaPros are eager to bring a unique people-focused business approach to Pocatello– the fifth largest city in Idaho. With their aligned values (Togetherness, Ownership, Do the Right Thing, Gratitude, Growth Mindset) and pride in what they do, PortaPros will strive to assist in fostering inclusion, respect, and justice, in support of the values reaffirmed by the mayor.

“I moved to eastern Idaho in order to bring a quality of service to the portable sanitation industry that has never been seen in these parts,” stated our Pocatello Territory Manager, David Teague, “I bring with me the same level of excellence and commitment that our customers in and around the Treasure Valley have been experiencing for the past twelve years. I am very passionate about what I do, and I can’t wait for you to experience the PortaPros difference.”
